NARRATIVE REPORT

SURVEY PORTION D. L. C. #51

SECTION 32, T. 37 S. R. 1 W. W..M.

JACKSON COUNTY, OREGON

The purpose of this survey was for establishing boundaries of an 18 acre tract as shown on the attached plat.

Pipes marking the Northeast and Southeast corners of Donation Land Claim #50 were found and bearing trees answering call of the notes corresponded. Chained distances between these two corners checked record distance. No evidence of the South quarter corner of Section 29 was found. By use of record notes of West line of Donation Land Claim #51 the position of the $\frac{1}{4}$ corner was correlated to property line tie to $\frac{1}{4}$ corner. Line was established between the found Donation Land Claim corners and measurements tied to the Southeast corner of Donation Land Claim #50.

The 18.0 acre area is bounded on the South by an existing barbed wire fence which is 22.55 feet North of the deed record location of South line of title, West line by East road boundary, North boundary by existing contracts and a portion of the creek, and East boundary limits the 18.0 acres.
