NARRATIVE REPORT
OF
WALT LEWIS SURVEY.
IN

Portion of D. L. C. #40 T. 38 S. R. 2 W.

The purpose of the survey was to establish boundaries and descriptions of parcels being sold.

Measurement was made from the Southeast corner of Donation Land Claim # 40 along line sighted to the Southwest corner of the Claim. Angle was then turned up the center line of South Stage Road and distances measured to establish desired property lines. Distances were run North according to Record and found to agree with location of established fence of property adjoining to the North and with a found pipe. Bearings were by astronomical observation.

Hugh C. Angle
CIVIL ENGINEER.
