Survey Narrative to Comply with Section 87-330 Oregon  
State Law (1947)

Survey For: MEDFORD IRRIGATION DISTRICT.

Purpose: To prepare descriptions for two tracts of land for new canal right-of-way made necessary by proposed relocation of said Medford Irrigation District Canal in Section 21, Township 37 South, Range 1 West.

The proposed improvement of the Foothill County Road required the relocation of two sections of the M. I. D. canal, which relocation was predetermined and the new right-of-way staked.

In this survey, began at the indicated Government corners and tied by way of the county road to the tracts between the present and proposed canal right-of-way boundaries, and then traversed said boundaries inclosing each tract. Descriptions were prepared for said tracts as shown on the map to accompany this report.

September - 1953
