Survey Narrative to Comply with Paragraph 209.250,
Oregon Revised Statutes

FOR: V. H. Steele

PURPOSE: To monument and describe a parcel to be purchased from John Pappas and located in Section 24, Township 38 South, Range 3 West.

PROCEDURE: Traversed Southerly from the 1/4 corner to Sections 23 and 24 to the corner to said Sections on the North boundary of Section 26, both of which corners had original scribed witness trees. The location for the one-sixteenth corner was computed from said traverse and the tract monumented as shown on the attached map. It was explained to Mr. Pappas, the owner of the entire West half of the Southwest 1/4 of Section 24, that the South line of the tract surveyed does not necessarily run along the sixteenth line.
