SURVEY NO. 10003

SURVEY NARRATIVE TO COMPLY WITH O.R.S. 209.250

For: Clarke Astle  
3045 Bellinger Lane  
Medford, OR 97501

Purpose: To survey and monument a rural parcel according to legal description furnished by client.

Procedure: The legal description furnished had been prepared using bearings shown on Survey No. 1784.

The westerly boundary of parcel was surveyed and monumented using record bearings and distances, as was the northerly and southerly boundaries.

It should be noted that the description is very definite in that it describes the easterly boundary as the "centerline of a natural water course drainage". Described dimensions do not get one to the creek however. Therefore, monuments set at record distances become witness corners to the center of the "natural water course drainage".

Basis of Bearings: Survey No. 1784
