Location: Northeast  $\frac{1}{4}$  of Southeast  $\frac{1}{4}$  Section 29 and West  $\frac{1}{2}$  of Southwest  $\frac{1}{4}$  Section 28, Township 34 South, Range 2 East, Willamette Meridian, Jackson County, Oregon.

Date: July 29, 1987

Basis of Bearing: Survey No. 8904

Purpose: To survey property described in Deed Records 81-03834 and to compute acreage of said property.

Procedure: In 1981 Section 29 was surveyed and recorded on Survey No. 8904. In 1983 Section 28 was surveyed and recorded on Survey No. 9664. I used these surveys to further calculate the subdivision of said sections. I used the control network established on these surveys to run a closed traverse survey around said property.

The Westerly boundary of said property is Cobbleigh Road. I used Jackson County Road records to determine the location of Cobbleigh Road. The original road location was referenced to the  $\frac{1}{4}$  corner common to section 28 and 29 from P.I. 124+41.3. In 1951 a portion of Cobbleigh Road was relocated to build a new bridge across Big Butte Creek. The relocation was referenced to the  $\frac{1}{4}$  corner common to section 28 and 29 from P.T. 40+82.30. I held these positions as referenced to said  $\frac{1}{4}$  corner. I calculated a new bearing from P.T. 40+82.30 on relocation to P.I. 119+90.7 on original location, and calculated new curve data for P.I. 119+90.7, as shown on plat.

The Southerly boundary of said property is the Northerly Line of roadway described in Volume 396 Page 370 of Jackson County Deed Records. I traversed along this road as it is constructed and held the constructed Position as best evidence.
