SURVEY NARRATIVE TO COMPLY WITH CHAPTER 209, PARAGRAPH 250,
OREGON REVISED STATUTES

SURVEY FOR: Boise Cascade Timber and Wood Products Group
P.O. Box 100
Medford, Oregon 97501

LOCATION: In Sections 8 and 9, Township 40 South, Range 3
East of the Willamette Meridian in Jackson
County, Oregon.

PURPOSE: To locate and monument the corners located in
the NE 1/4 of Section 8 as shown on the
attached map and to blaze, paint and place
metal tags on trees along those boundary lines
shown with a bold line on the attached map.

PROCEDURE: A closed traverse was executed in and around
Section 8 which generated a closure of about
1:14,000. This was then balanced and adjusted
and short open traverses were run to tie in the
South and West 1/4 corners of Section 8. The
subdivision of the Section was then computed
and the desired boundaries were traversed,
monumented and marked as per client's direction
and as shown on the accompanying plat.
With regard to the the line that was marked
in Section 9, the found 3" x 3" squared wooden
stake in stone mound must be considered as
approximate and the line should not be
construed to be the true East-West center line
of Section 9. To perpetuate said approx.
corner, the following trees were scribed "X-
BT": 6" diam. Fir bears N.14°E., 25.56 ft.
10" diam Fir bears S.48°E., 42.55 ft.

The 1" diam. iron pipe reported set at the
North 1/4 corner of Section 8 on Recorded
Survey Number 4269 could not be found. I
remonument this corner and from which the
bearing trees scribed on said survey and found
with healed blazes are as follows:
19" diam. B. Oak bears S.63°14'E., 91.50'
to estimated lower face.
18" diam. W. Oak bears S.12°21'W., 78.2' to
estimated upper face.

Bearing trees for the following corners set
on this survey were scribed per the B.L.M.
manual and are as follows:
At the CN 1/16 Corner:
6" diam. D. Fir bears N.37°30'W., 17.0 ft.
(only tree available)

At the NE 1/16 Corner:
14" diam. D. Fir bears S.21°49'W., 8.3 ft.
6" diam. B. Oak bears N.79°49'W., 22.6 ft.
