FOR
HENRY SANDVIG

BY EDWARD A. MCGINTY
MEDFORD, OREGON
OCTOBER 29, 1958

SCALE 1" = 100'
O = 3/4" PIPE SET
X = 1/2" PIPE SET

Survey No. 1169

Survey Narrative to comply with O.R.S. 209-205 and O.R.S. 209-120

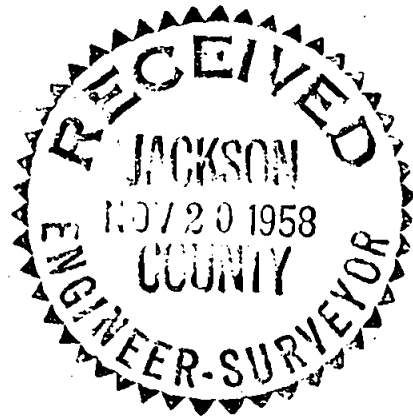

Survey for: Mr. Henry Sandvig

Survey by: Edward A. McGinty, 10/30/58

BASIS OF BEARING: Solar observation

PRECEDENCE OF SURVEY:

Determined the center line of Beall Lane from monuments found along the center line of Beall Lane. At the intersection of Hanley Road, a 3/4 inch iron pin, and at the intersection of Grant Road, a 1/2 inch iron pipe, a stone at the northeast corner of DLC 44 and 1 1/2 inch iron pipe at the southwest corner of DLC 54, being both in T37S, R2W. Center line of Grant Road determined from a 5/8 inch iron pin along the westerly boundary of the road and the easterly boundary of Grant Acres Sub-division. Traversed a line parallel too and 13 feet from the center of the creek, a proposed boundary line. From deeds of record and instuctions of client, surveyed parcels as shown.

Edward A. McGinty
