

NARRATIVE:

PURPOSE OF SURVEY: To place property corners on the Adjusted lot line common to PARCEL 1 and PARCEL 2.

PROCEDURE: I first locate those corners shown from the MAJOR LAND PARTITION which created PARCELS 1 & 2 (Sur. # 6996). I then measured and set corners to place the adjusted line 150.00 feet south of the original location. The Easterly 1000 feet, more or less, of the new line was marked for fencing purposes.
