SURVEY FOR JOHN WERRE
IN
SECS. 9 AND 10, T. 36 S., R. 4 W.

The point of prime control for this survey is the $1\frac{1}{2}$ in. pipe monumenting the cor. common to secs. 9, 10, 15, and 16, that is located 2 ft. south of the power pole on the northerly bdy. of the Wentworth property. This is the off. cor. as shown in the record of "reestablished corners", Jackson County Surveyor.

The meridean for this survey is the record bearing for the line bet. secs. 15 and 16, as shown in the resurvey of that line by the county surveyor.

The centerline of West Evans Creek Road was reestablished from the reference points as shown in the notes of the Reestablishment Survey of West Evans Creek Road, County Road Engineer.

All bearings are derived by angulation carried forward from the controlling meridean.

The authority for this survey is the Conditional Sale Contract to John Werre dated the 2nd day of Oct., 1954.
