Survey Narrative to comply with paragraph 209.250, Oregon Revised Statutes.

SURVEY FOR: Mr. Doy Drexler. Dec. 1959

PURPOSE: To survey the East Half and the East Half of the West half, of the North East Quarter of Section 22, Township 35 South, Renge 2 West, Willamette Meridian- also that portion of Section 15, laying just north of the above parcel and south of State Highway No. 271. To divide into twelve parcels as directed with a road easement to serve each parcel.

PROCEDURE: Was unable to find any definite evidence of the Section orner common to Sections 14,15 22, and 23, but a very old fence line on both the north and south sides of Highway 271 agreed with the east and west position of the Section Line. With this as a starting point the East Quarter Corner of Section 22 was found as described in the G. L. O Field Notes, S. O'02' East a distance of 2866.5 ft.. From this 2 Corner S. 89 39' W., a distance of 1986 ft. an old fence commer was found with an old fence continuing to the West. The fence also ran from this point north to a point on the South side of Highway No. 271. Since no other evidence was available as 👑 disqualify this as the established position of the tract, these points were used to survey, and monument the twelve parcels as shown in the plat submitted herewith.

> Jon R. Pearce Engineer The. 838

ADDENDO: At corner 14, 15, 22 and 23, I found a 1" iron pipe 6" below ground surface and a witness mark, being a 3" bronze disk, at County Bridge, over Snider Creek, bearing North 54° West 363.7 feet. Also found a 36" Black Oak South 6° East 514.6 feet. From this point I ran South 0°02' East 2640 feet and at quarter corner between Sections 22 and 23 I found an old survey stake with a 24" white oak bearing South 46° West 121 links. Scribe chopped out
