JACKSON COUNTY
SURVEYOR

PROCEDURE: The new boundary created by the
above mentioned deeds is described as being the Northeasterly
right-of-way line of Litte Applegate (County) Road which was
monumented on File Survey No. 5208. Monuments set on said
survey were located as shown on the accompanying map. The
5/8" rebar set on Filed Survey No. 7109 on the South boundary
of the North-half of the NE 1/4 of Section 29 is located near
the Northeasterly right-of-way line and will be considered a
witness corner to Southeasterly end of the new boundary.

The Most Westerly corner of Adjusted Tax Lot No. 201 was
set utilizing Filed Survey No. 5526 for control of the North
boundary of Section 29 as shown.

The monument set on the Southwesterly right-of-way line
of the county road was set on the calculated North-South
centerline of Section 29 as established on Filed Survey No.
7109 and should be considered a witness corner as the South
quarter corner was not tied on this survey.
