Survey narrative to comply with ORS 209.250, Oregon State Law of 1947

For: Gerald E. Messinger, Juliet V. Messenger and Prudence Gregory,  
6935 Jellico Avenue, Van Vuys, California.

Purpose: To subdivide a tract of land into parcels and Streets.

Procedure: As this total tract was bounded by a former filed survey I subdivided the same into acreage tracts with Avenues as shown on accompanying map. The Avenues approved by the Jackson County, Planning Commission. The Planning Comm. recommended a cul-de-sac within the boundaries of the road adjacent to the north line of the property but due to the fact that this Avenue is to be extended in the near future thru the property directly north, I have omitted showing this. The land directly north is owned by the same persons.
