

SURVEY NO. 17540

SURVEY NARRATIVE TO COMPLY WITH PARAGRAPH 209.250
OREGON REVISED STATUTES

SURVEY FOR:

Steven and Carol Rabjohn
2535 Thompson Creek Road
Applegate OR. 97530

LOCATION:

Northwest one-quarter Section 33, Township 38 South, Range 4 West, W.M., Jackson County,
Oregon

PURPOSE:

To survey and establish corner point monuments for the northeast and northwest corners of the lands described in Document 02-23080 of the deed records of Jackson County.

PROCEDURE:

I began this survey with the recovery of survey control and monuments established during my prior Survey Number 17408. Utilizing this control I performed a random traverse along the north and east closing to my previously established control. I established the Northwest one-sixteenth corner from this traverse.

I recovered monuments established by Surveyor Verlyn Thomas, L.S. No. 505 during Survey Number 4799 to determine the alignment of the west boundary of the property. I held this alignment to establish a monument at the intersection of this line with the line between the north one-sixteenth corner and the center-north one-sixteenth corner.

BASIS OF BEARING:

The basis of bearing utilized for this survey is the line between recovered monuments established by Surveyor Thomas during SN 4337. Monuments utilized are noted on the Record of Survey Map.

Equipment utilized in this survey:

Nikon DTM 420 Total Station and related equipment.

DATE OF SURVEY:

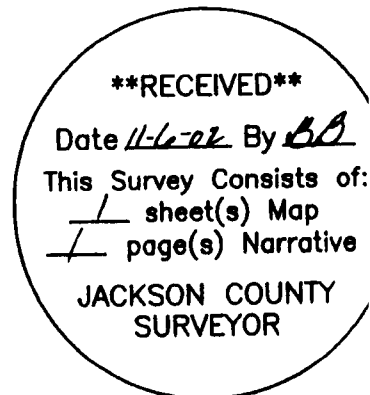

November 4, 2002
