 This survey consists of:  
1 sheet(s) Map  
0 page(s) Narrative  
**JACKSON COUNTY SURVEYOR**

## NARRATIVE

**Purpose:** to survey & monument the exterior boundary of the lands described in Document No. 05-17508, Jackson County Official Records.

**Procedure:** Using control set during the performance of my survey CS 17748, and new data collected with a Nikon DTM 522 total station, I ran a closed loop traverse tying the monuments shown. I found and accepted the monuments shown per CS 8346. I held the deed record dimensions south to determine the position of the south line of the property in question (PIQ). I held the deed record call west from the centerline of West Evans Creek Road to determine the east line of the PIQ.

**Basis Of Bearings:** control established for CS 17748
