Survey narrative to comply with ORS 209.250

For Walter W. Eilers, Rt. 1, Box 248, Talent, Oregon
 Purpose To mark and describe the boundaries of tracts
 1 and 3 on map and show the boundaries of tract 2
 platted from Deed Record, not surveyed.

Procedure: Having previously surveyed the adjacent property
 to the North I used the monuments set on that
 survey for continuation of the survey of tracts
 1 & 3 shown on map. For the right-of-way line
 of Interstate 5, I used the Highway R/W iron
 pins set at intervals along the line.

The iron pipe at the SE corner of D. L. C. 75
 has been destroyed. Having points set from this
 corner along the east line of Claim I did not
 attempt to replace it.

Tract # 2 shown is platted only, not retraced.
