## SURVEY NARRATIVE TO COMPLY WITH O.R.S. 209.250

PURPOSE: Boundary Survey monumenting the boundary of tract described in Instrument No. 2009-000927 O.R..

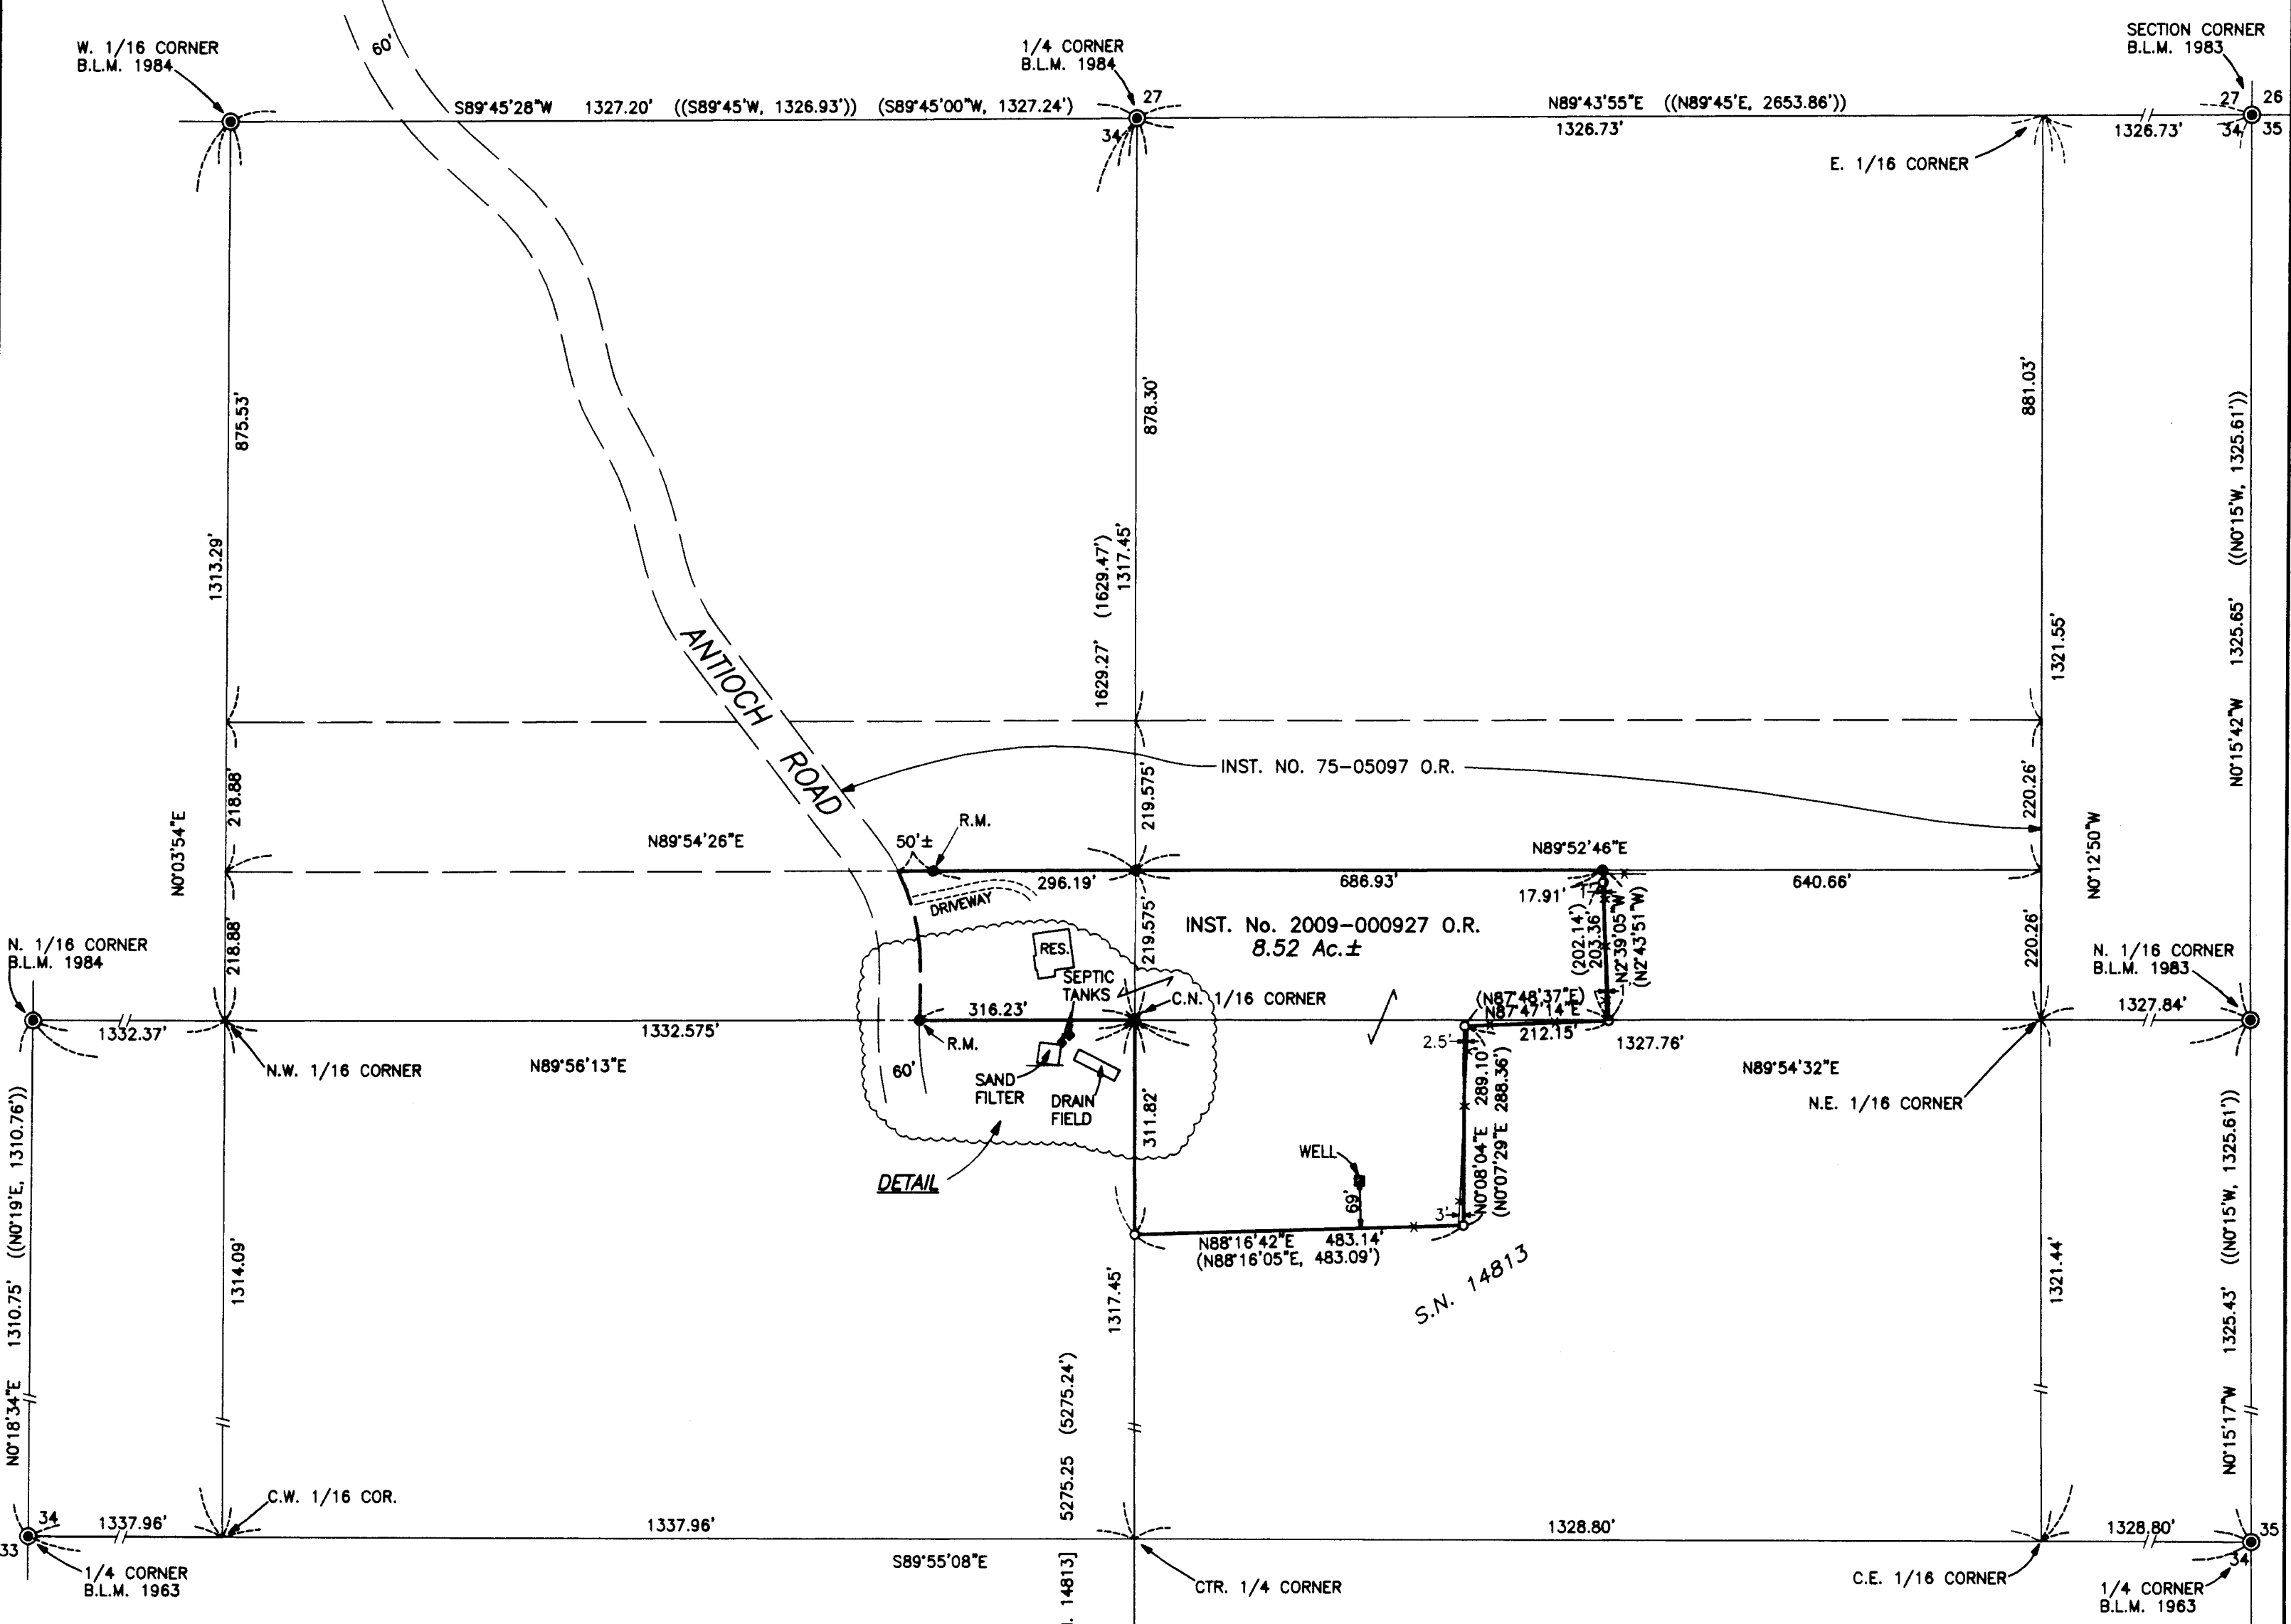

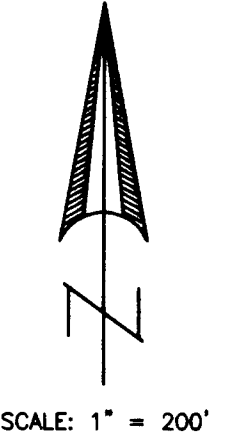

PROCEDURE: Equipment used to perform survey was a Nikon DTM 530 total station. Information and found monuments from Filed Survey No. 14813 and Bureau of Land Survey dated October 10, 1986, and deeds of record were used to determine the boundaries of the subject property.

A subdivision of Section 34 was computed from survey ties made to found Government monuments as shown. The North, and a portion of the South and West Boundaries were Sectional subdivision boundaries. The East and the remainder of the South boundaries follow a monumented property line adjustment boundary as surveyed on Filed Survey No. 14813 in Office of the Jackson County Surveyor as shown on annexed map.

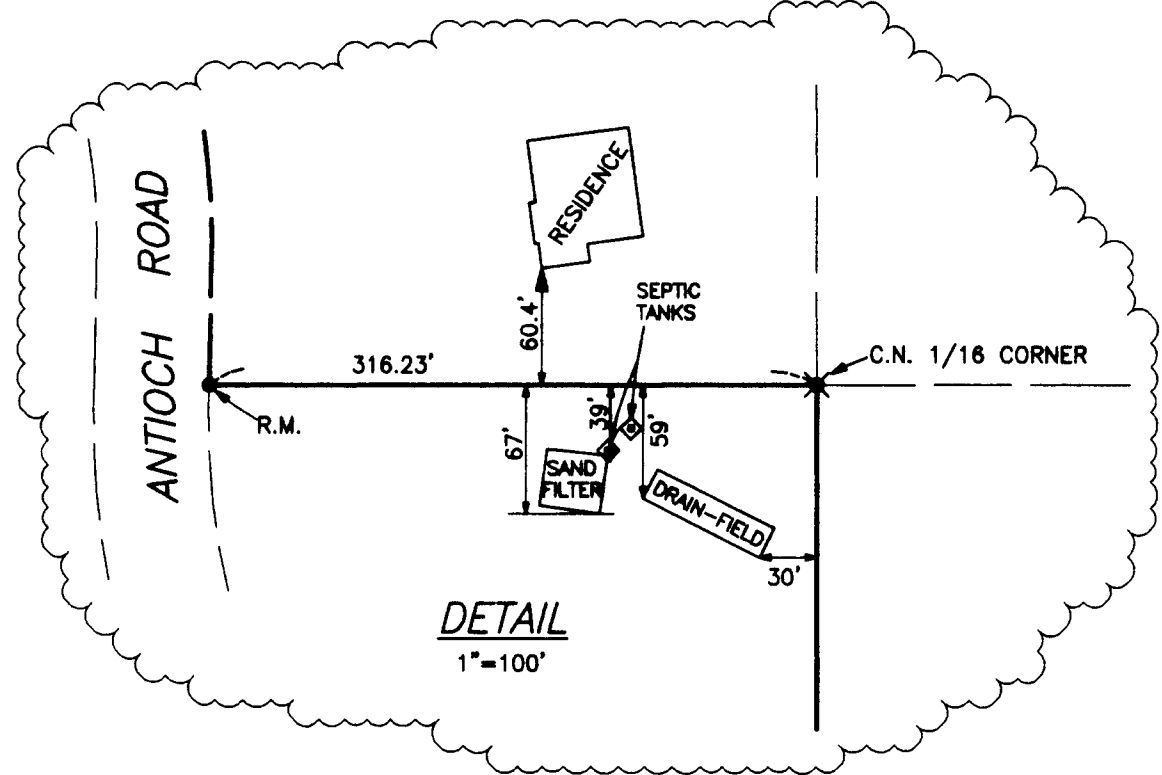

The most Westerly boundary of subject property is described as the Easterly line of the Antioch County Road. On this survey the painted centerline of Antioch Road was tied and right-of-way computed 30' Easterly.
