**SURVEY NARRATIVE  
 TO COMPLY WITH O.R.S. 209.250**

**Purpose:** This survey was conducted to monument the boundary described in Inst. No. 2010-20476 as created by Inst No 80-11287 as requested by our clients shown hereon.

**Procedure:** Utilizing S/N's 6651 and 12840 which were prepared by predecessor companies to Farber Surveying along with their records in my possession, I computed the boundary as shown on S/N 12840 and the above described deeds. A real time kinematic survey of the found monuments was performed followed by an infield calibration to the computed coordinates for the monuments established on this survey. It is my professional opinion; following my review the results of the post field analysis of the points established on this survey that they represent the title location. This opinion is based on consideration of the expansive soil type and the relative location of the found monuments to their record locations.
