SURVEY NARRATIVE TO COMPLY WITH PARAGRAPH 209.250, OREGON REVISED STATUTES

PURPOSE: Pursuant to Client's request and direction, perform a boundary survey, recover controlling monuments, establish monuments at boundary corners as necessary, and to process and file a Map of Survey in the office of the Jackson County Surveyor.

PROCEDURE: Utilizing Trimble 5700 GPS equipment with Real-time Kinematic (RTK) methods utilizing the Oregon Real-time GPS Network (ORGN), a Trimble S6 Robotic Instrument and Trimble TSC2 data collectors with Trimble software, all found monuments were tied in a closed loop traverse or by redundant observations. Records utilized: Instrument Number 79-18492 of the Official Records of Jackson County, Oregon; and, Surveys Numbered 9158 and 19139 as filed in the office of the Jackson County Surveyor.

Utilizing said GPS equipment, RTK methods and the ORGN, located and tied the Northwest and North One-quarter corner of Section 22 as depicted hereon, establishing the north line of said section and applied basis of bearings (refer to the "BASIS OF BEARINGS" statement hereon). From which, computed the boundary per Instrument Number 79-18492 based on the Northwest corner of said Section 22 and the bearing of said North line.

Searched for monuments at each computed boundary corner and found none. Field work, including establishing the monuments depicted hereon, on October 6, 2011.
