Survey narrative to comply with ORS 209.250

For: D. L. Pickell, 411 E. Main St. Medford, Oregon.

Purpose: To mark the boundaries of properties shown according to descriptions furnished by D.L. Pickell

Proceedure: As the descriptions were all tied to the Section corner I used this corner and monuments along the N- S. Section line forthe control of my survey. I also found monuments along the North and South lines of Mace Road West of my survey area for the directional control of Mace Road lines. For the East line of the properties I stopped my survey at the Deed Record distances from the N - S Section line as I found no points outlining the West line of Howard Road North of the Mace Road intersection.
