Written narrative to accompany plat for Survey NO.

2465

Survey for Medford Water Commission, City Hall Medford, Oregon.

Completed approximately February 21, 1964

Purpose: to tie and map as many existing property pins in and around Valley View and Harrison Street as could be found.

Bearings for mapping purposes was taken from survey NO, 923

Procedure: From the stone with cross at Sunrise and Capital Streets a tie line was run to a 3/4" pipe on the northeast corner of Valley View and Capital.

Then using the above point a centerline for Valley View was set up using the 2 points at Harrison Street and Valley View to establish the center at that location.

Tie line was the established to the East and north and all lot corners available were tied as shown on the plat.

No new corners was set on this survey.
