Survey Narrative to comply with ORS 209-250

Survey For: Mr. George Sprague  
532 Palm St.  
Medford, Oregon

Basis of Bearing: Recorded Survey #2244

Date: October 18, 1967

Survey by: C. Lind McBeth  
P.O. Box 310  
Jacksonville, Oregon

Survey Procedure: Found the brass disc for the Quarter Corner to Sections 3 & 4, T37S, R1W, W.M. and also points along Foothills Road from recorded Survey #2244 to establish my control for this Survey. The pins along the Westerly line of the canal were in, but not in good condition as they were bent or covered by fill since my last survey in this area. I used the Section line between the above mentioned Quarter Corner and the Section Corner common to Sections 3, 4, 9 & 10 for control and surveyed the parcels of this tract as directed by the client.
