OREGON REVISED STATUTES

SURVEY FOR: Harry J. McAllister
Route 1, Box 46C
Jacksonville, Oregon

Survey by : Charles H. Hurst, L.S.
28 North Oakdale
Medford, Oregon

Bearing : Based on the meridian for recorded survey No. 3603.

Purpose : To separate the tract shown, monument the corners
and define the boundaries thereof.

PROCEDURE

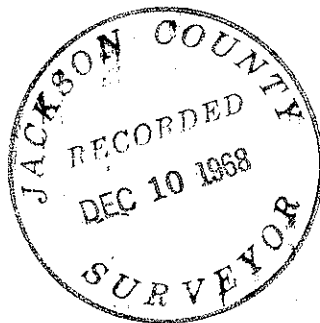

Road control was held as monumented by 1/2" iron pins. The northerly boundary of the separated tract was held 20 feet South from the monumented line as established by recorded survey No. 1791.

The west boundary of that portion of the separated tract extending southerly from the boundary between Sections 3 and 34 is intended to coincide with the easterly boundary of that tract described in Volume 372, page 195 of Deed Records, Jackson County, Oregon.

However, said tract is written so as to be squared with the north-south line dividing the northwest quarter of Section 3 to the West and the north boundary of Section 3 to the North. To define the easterly boundary of said tract would require the subdivision of Section 3 which is not economically feasible at this time.

Therefore, said boundary was held parallel to that established by recorded survey No. 663 for the same reason and the possible effect explained to the client.
