SURVEY NARRATIVE TO COMPLY WITH PARA. 209.250 O.R.S.

Survey for: E.A. Wolff
Shady Cove, Oregon

Purpose: To establish property boundaries.

Location: SE 1/4 Sec. 21 T 34S R1W W.M.
Jackson County, Oregon

Procedure: Found section corner common to sections 21-22-27 and 28, and took a solar observation. Then calculated coordinates for the corners of the property and set 5/8" Pins as shown on map.

The pins were set as witness corners, not actual property corners, for the following reasons: (1) The property corners along the West r/w of Crater Lake Highway will be changed when the new proposed highway is completed. (2) The property corners along the West property line are now under water, or on the other side of the Rogue River, due to the change of the water course caused by flooding.
