Basis of bearing: Recorded Survey No. 4889

PURPOSE: To establish new easterly and southerly property lines for Leo Lewis per agreement between Lewis and Conger. The deed records will change accordingly.

PROCEDURE: Determined the location of the east interior 1/64 corner from Recorded Survey No. 1098. Ran a survey line west along the east-west centerline on Section 10, T 32 S, R 2 E, W.M., Jackson county, Oregon from the 1/4 corner common to Sections 10 and 11 of said Township and Range. Established a mutually agreed upon east property line for Lewis (part of west property line for Conger) and set 1/2-inch by 30-inch iron pins at the angle points along this line. Mathematically computed the southern and western boundaries from Recorded Survey No. 1098. Did not set southwest corner of Lewis property as it falls along the cliff forming the Upper Rogue River Canyon. Survey completed September 22, 1973.
