SURVEY NO. 6111

SURVEY NARRATIVE TO COMPLY WITH PARAGRAPH 209.250
OREGON REVISED STATUTES

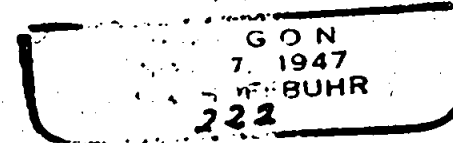

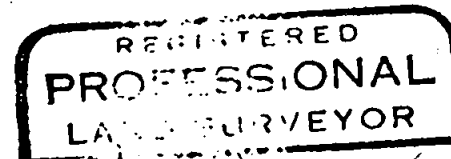

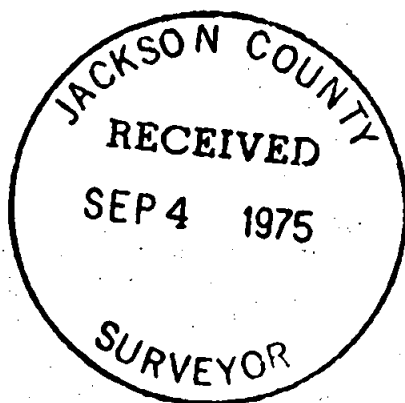

SURVEY FOR: Afseth, Jacobs, & Schmitz
2950 E. Barnett Road
Medford, Oregon 97501

LOCATION: Southeast one-quarter (1/4) corner of Section 25,
Township 37 South, Range 2 West, Willamette
Meridian, Jackson County, Oregon.

PURPOSE: To survey and monument Blocks 3, 4, and 5 of
Galloway's Addition to the City of Medford.

PROCEDURE: Located existing centerline control monuments as
shown on map. Considerable research was done in order to establish
the centerline intersection of Oakdale Avenue and West Eighth Street.
All State and City reference points have been destroyed in this
particular area of West Eighth Street, and it became evident after
tying the existing centerline and curblines that there is a dis-
crepancy between existing street alignment and that of record by
the State Highway Department. It was decided, therefore, to
establish witness corners at the back of curb on West Eighth Street
as right-of-way alignment only for King Street and Oakdale Avenue
and does not represent the northerly property line of Block 5.
Basis of bearing--Recorded Survey No. 4219.
