PRECEDENCE OF SURVEY:

At clients request, checked boundary between adjacent tract and confirm if the fence line was constructed on line with proper corner monuments.

Found fence in error, corner at the beginning of the curve. Surveyed line as shown, found monument along the North-line of the road (not shown) recently cultivated around and apparently moved southeasterly. At 0 + 17.62 found 3/4"x24" iron pin bent at ground surface. This pin was straightened and reset in its original position approx. 12" in the ground.
