SURVEY NARRATIVE TO COMPLY WITH PARAGRAPH
209.250 OREGON REVISED STATUTES

Survey for: Keith Hockersmith
c/o Realestaters, Inc.
406 South Riverside Ave.
Medford, Oregon 97501

Survey by : Charles H. Hurst, L.S.
304 South Holly Street
Medford, Oregon 97501

Bearing : Based on County road record.

Purpose : To monument the corners shown.

Procedure

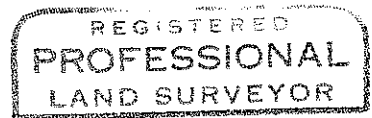

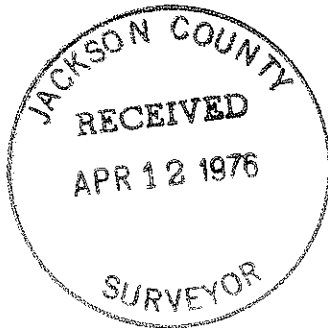

Survey control was established from reference points set by the County road department for the center line of Poorman Creek Road.

The quarter corner common to Sections 8 and 9 and the center quarter corner of Section 9 established during the course of Survey No. 2740 was tied utilizing EDM equipment and the line thus determined between the two corners was held.

The record angle at the center quarter corner per Survey No. 2740 was held per instructions of the client. Accordingly, the witness corner set on the northerly boundary of the county road should be considered somewhat approximate pending verification of the position of the south quarter corner of Section 9.

Record radius was held for the curve between Stations 101+11.45 and 111+40.66 and new curve data was computed for the central angle determined.
