By: George Burrell, Surveyor, May 1976

SURVEY NO. 6378

SURVEY NARRATIVE TO COMPLY WITH O.R.S. 209.250

FOR: Don Skillman
P.O. Box 83
Ashland, Oregon

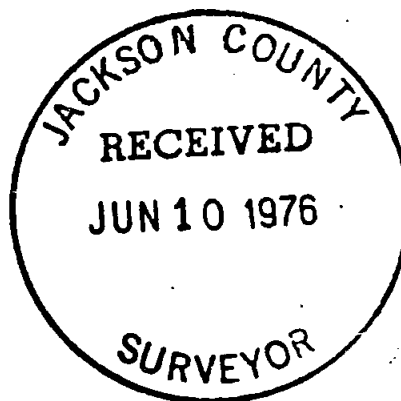

PURPOSE: To monument those tracts of record as shown on the
accompanying map.

PROCEDURE: A closed traverse was run between all corners of control
utilizing a H.P. 3805 Dist. Meter and 20" Theodolite,
resulting in a relative positional error of 1/20,000, of
which was reduced to zero by the Compass Rule.
As the apparent positional error of the 1/16 section
corners as established by the B.L.M. were not acceptable
to the client, descriptions for boundary line agreements
were furnished for the purpose of fixing said boundaries.
The two record boundaries in section 25 were changed at
the direction of the client-descriptions were furnished
to fix said boundaries by agreement.
Dead Indian County Road Right of Way positions were
established by tying to R./R. spikes found at centerline
curve points. Said spikes were set by the County Engineer
and at the time of my survey the right of way monuments
were not set.
