SURVEY NO. \_\_\_\_\_

SURVEY NARRATIVE TO COMPLY WITH O.R.S. 209-250

Survey for: Mr. Gregory Adams 76-41  
3030 Eldorado St.  
Medford, Oregon 97501

Survey by: Edward A. McGinty, R.S.  
Medford, Oregon  
October, 1976

Basis of Bearing: county road tangent, S.24°13'E.  
(which agreed closely with solar obser.)

Location of Survey: NE. 1/4 of Sec. 29, T34S, R2W. WM  
Jackson County, Oregon

Precedence of Survey:

Purpose of this survey was to divide a large tract, as shown. Because of considerable more expense, the client was not concerned with the location of the exterior boundaries - using county road data of record, a portinn of the county road is shown.

The exterior boundaries are shown as approx. and not to be construed otherwise.

Using county road and recorded data, it would appear that a sizeable encroachment along the north and south line of center section exists and can only be verified by a sub-division of the section.
