LOCATION: Northwest one-quarter (1/4) of Section 5,
Township 36 South, Range 4 West, Willamette
Meridian, Jackson County, Oregon

control for this project. Various monuments were located and tied
in order to get oriented to said survey, thus checking and verifying
their locations as shown. With the client's understanding, we used
the protraction of Section 5 per Recorded Survey No. 6335 as control
for establishing the monuments as shown on attached map. Monuments
were located in the field thought to have been set per Recorded
