

CORRECTION MEMORANDUM TO THE RECORDED SURVEY FILES

PURPOSE: To ammend a duplication of two different recorded surveys with the same recording number.

DATE: On February 1, 1974, a survey was filed, No. 5565 by Robert D. Nehler for the Prospect Lions Club, with a subsequent ammendment to said survey recorded April 11, 1974, same surveyor,

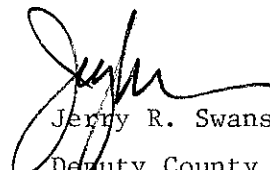

On an unknown date, a road right-of-way survey of the Butte Falls-Prospect Road (roll map) was filed by the Jackson County Public Works Department, (William Gaddis, Engineer) and was inadvertently given Recorded Survey No. 5565.

In order to provide continuity and independence of the Jackson County Surveyor's Office numerical recording system, we are re-recording the road right-of-way map of survey as ..... R.S. 8260

We are lining out all reference to R.S. 5565 denoted on said right-of-way survey and re-marking same 8260.

It is imperative to state herewith that Mr. Gaddis has stamped this survey with an Engineer's Seal and by these presents, I, Jerry R. Swanson, Deputy County Surveyor state that this survey was filed, officially prior to the requirement by statute requiring all surveys to be stamped by a Professional Land Surveyor.

Made and entered into the record this 4th day of March, 1980.

  
Jerry R. Swanson  
Deputy County Surveyor
