SURVEY NO. 8272

SURVEY NARRATIVE TO COMPLY WITH O.R.S. 209-250

Survey for: Mr. Jim Frazier
4979 E. Antelope Rd.
Eagle Point, Or

Survey by: Edward A. McGinty, R.S.
Medford, Or
February, 1980

Basis of Bearing: North line of Sec. 5, N.89°49'41"E.

Location of Survey: NW 1/4 of the NW 1/4 of Sec. 5, T37s, R1E.

Precedence of Survey:

At the request of client, determined the approx. easterly boundary of tract described in a description furnished by client.

The true easterly boundary would require a sub-division of Section 5, which would be considerable more costly.

By utilization of the other survey data, computed the approx. easterly boundary shown as a broken line on plat.

Monuments set being 5/8 x 24 in. iron pins.
