Medford, Oregon 97501 Rogue River National Forest

P. 0. Box 520

Medford, Oregon 97501

Survey By:

Arthur R. Rambo 331 Bluff Street

Butte Falls, Oregon 97522

Date:

April 9, 1980

Purpose:

To post and mark the property lines between Medford Resources

Corporation and National Forest land in S4 T36S R3E.

History:

Nathaniel Ford surveyed the 8th Standard Parallel South, North Boundary of T36S R3E W.M. under Contract No. 58 dated April 18, 1855. Rufus Moore surveyed T36S R3E and resurveyed the 8th Standard Parallel South, Range 3 East under contract No. 475 dated July 3, 1883. The County Surveyor re-established from original evidence the closing corner common to S4 and 5 in 1973, the closing corner common to S3 and 4 in 1950 and again in 1975, the Angle Point to S33 T35S R3E and S4 T36S R3E (1/4 corner) and the Angle point to S34 T35S R3E and S3 T36S R3E in 1975. The Cadastral Surveyor re-established from original evidence the East and West 1/4 corners and the corner common to S3, 4, 9 and 10 in 1962, and the corner common to S4, 5, 8 and 9 in 1966. Ron Scherler, Cadastral Surveyor, resurveyed the 8th Standard Parallel South between S 33 T35S and S 4 T36S R3E in 1977 and 1978.

Procedure:

Ran a traverse with a Theodolite and electronic measuring devise closing to Survey No. 7056. The corners which were set by the Cadastral Surveyor in 1977 and 1978 are not official at this date. These monuments were checked and found to be set within the tolerances as specified in the Manual of Surveying Instructions 1973.

Corners and accessories accepted for control of this survey: (Measurement to bearing trees are to the center of trees unless otherwise stated.)

Closing corner common to S4 and S5 T36S R3E and 8th Standard Parallel South. At the corner location I found a $2\frac{1}{2}$ inch diameter bronze disc buried 11 inches under road surface marked:
