

From which the following references:

A 25-inch diameter fir bears N 75° 20' W 34.60 feet distance. Scribed CW 1/16 S34 LS 1071 BT.

A 22-inch diameter cedar bears N 44° 44' E 39.96 feet distance. Scribed CW 1/16 S34 LS 1071 BT.

Center-South one-sixteenth corner Section 34, Township 36 South, Range 3 East.

At the corner point I set a  $2\frac{1}{2}$ -inch diameter galvanized iron post with a  $2\frac{1}{2}$ -inch diameter brass cap marked:

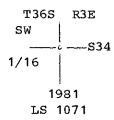

From which the following references:

A P-K nail in a large basalt rock bears N 63° 19'  $\scriptstyle\rm E$  10.70 feet distance.

A 20-inch diameter cedar bears N 62° 34' W 33.20 feet distance. Scribed CS 1/16 S34 LS 1071 BT.

Southwest one-sixteenth corner Section 34, Township 36 South, Range 3 East.

At the corner point I set a  $2\frac{1}{2}$ -inch diameter galvanized iron post with a  $2\frac{1}{2}$ -inch diameter brass cap marked:

From which the following references:

A 14-inch diameter cedar bears S  $48^{\circ}$  18' E 53.50 feet distance. Scribed SW 1/16 S34 LS 1071 BT.

A 13-inch diameter pine bears S 77° 52' W 91.50 feet distance. Scribed SW 1/16 S34 LS 1071 BT.

April 1, 1981

HAROLD L. CENTER Registered Professional Land Suryveyor Oregon Certificate No. 1071

From which the following references:

A 16-inch diameter fir bears N 76° 16' W 22.50 feet distance. Scribed S 1/16 S33 LS 1071 BT.

A 11-inch diameter fir bears N 47° 18' E 16.10 feet distance. Scribed S 1/16 S34 LS 1071 BT.

West one-sixteenth corner Section 34, Township 36 South, Range 3 East, and Section 3, Township 37 South, Range 3 East.

At the corner point I set a  $2\frac{1}{2}$ -inch diameter galvanized iron post with a  $2\frac{1}{2}$ -inch diameter brass cap marked:

From which the following references:

A 6-inch diameter cedar bears N 83° 55' E 119.14 feet distance. Scribed X BT.

A 7-inch diameter cedar bears S 10° 22' E 50.15 feet distance. Scribed W 1/16 S3 LS 1071 BT.

A finishing nail in guardrail support bears N 06° 19' W 24.80 feet distance.

Center one-quarter corner Section 34, Township 36 South, Range 3 East.

At the corner point I set a  $2\frac{1}{2}$ -inch diameter galvanized iron post with a  $2\frac{1}{2}$ -inch diameter brass cap marked:

From which the following references:

- A 15-inch diameter fir bears N 54° 59' W 70.35 feet distance. Scribed C  $\frac{1}{4}$  S34 LS 1071 BT.
- A 16-inch diameter fir bears S 23° 16' E 21.50 feet distance. Scribed C 1/4 S34 LS 1071 BT.

Center-West one-sixteenth corner Section 34, Township 36 South, Range 3 East.

At the corner point I set a  $2\frac{1}{2}$ -inch diameter galvanized iron post with a  $2\frac{1}{2}$ -inch diameter brass cap marked:

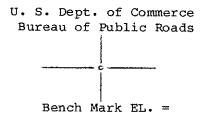

A 21-inch diameter cedar bears S 23° 32' E 112.90 feet distance with a healed blaze.

All other references have been destroyed. This corner is situated northeasterly of a residence and easterly of a dirt driveway leading from Highway 140 to the residence. To preserve and protect this monument, I reference this monument as follows: (See Detail 'A' on Record of Survey Plat.)

A  $2\frac{1}{2}$ -inch diameter brass disk set flush with the ground in a concrete pad bears N 64° 35' 33" W 375.09 feet distance.

A  $2\frac{1}{2}$ -inch diameter brass disk set flush with the ground in a concrete pad bears N 51° 41' 35" W 452.757 feet distance.

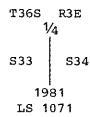

The above described brass disks were established by the Federal Highways as reference to centerline sta P.S. 646+31.15 and are marked as follows:

## Corners Established This Survey

One-quarter corner common to Sections 33 and 34, Township 36 South, Range 3 East.

At the corner point I set a  $2\frac{1}{2}$ -inch diameter galvanized iron post with a  $2\frac{1}{2}$ -inch diameter brass cap marked:

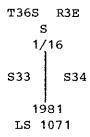

From which the following references:

A 13-inch diameter fir bears S 85° 44' E 10.70 feet distance. Scribed 1/4 S34 LS 1071 BT.

A 14-inch diameter pine bears S 69° 02' W 100.30 feet distance. Scribed  $\frac{1}{4}$  S33 LS 1071 BT.

South one-sixteenth corner Sections 33 and 34, Township 36 South, Range 3 East.

At the corner point I set a  $2\frac{1}{2}$ -inch diameter galvanized iron post with a  $2\frac{1}{2}$ -inch diameter brass cap marked:

A 16-inch diameter fir bears S 23° 28' E 9.70 feet distance with scribe visible.

A 15-inch diameter fir bears S 46° 28' W 15.80 feet distance with a healed blaze.

A 34-inch diameter fir bears S 64° 11' W 68.06 feet distance with a healed blaze.

A 18-inch diameter fir bears N 47° 13' W 6.10 feet distance with a healed blaze.

One-quarter corner to Section 34, Township 36 South, Range 3 East, and Section 3, Township 37 South, Range 3 East.

At the corner point I found a  $1\frac{1}{2}$ -inch diameter galvanized iron pipe established by Marvin C. Ramsey, Registered Professional Land Surveyor No. 404 (Ref. Record Survey No. 1527). I remove this monument and place said pipe inside my monument and at the corner point I set a  $2\frac{1}{2}$ -inch diameter galvanized iron post with a  $2\frac{1}{2}$ -inch diameter brass cap marked:

From which the following references:

Trees marked by Surveyor Ramsey which I do not open and verify.

A 13-inch diameter fir bears S 75° 40' E 13.40 feet distance with a healed blaze.

A 19-inch diameter fir bears N 62° 24' E 14.30 feet distance with a healed blaze.

New references this survey:

A 18-inch diameter fir bears N 65° 46' W 43.90 feet distance. Scribed 1/4 S34 LS 1071 BT.

A 14-inch diameter fir bears S 86° 45' E 12.00 feet distance. Scribed 1/4 S3 LS 1071 BT.

Section corner common to Sections 33 and 34, Township 36 South, Range 3 East, and Sections 3 and 4, Township 37 South, Range 3 East.

At the corner point I found a standard BLM brass cap monument marked:

Cadastral Surveys
Bureau of Land Management

From which the following references:

A 19-inch diameter cedar bears N 43° 12' E 65.00 feet distance with a healed blaze.

## Corners Accepted For Control

As previously stated, the following corners were described within Record Survey No. 8710 and will not be redescribed.

Section corner common to Sections 26, 27, 34 and 35, Township 36 South, Range 3 East.

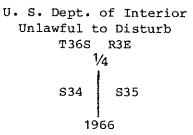

Section Corner common to Sections 27, 28, 33 and 34, Township 36 South, Range 3 East.

One-quarter corner common to Sections 27 and 34, Township 36 South, Range 3 East.

The following corners were used as control and are described as follows:

One-quarter corner common to Sections 34 and 35, Township 36 South, Range 3  $\operatorname{East}$ .

At the corner point I found a standard BLM brass cap monument marked:

Cadastral Surveys
Bureau of Land Management

From which the following references:

A 12-inch diameter cedar bears N 79° 51' E 9.10 feet distance with scribe visible.

A 22-inch diameter pine bears S 35° 14' E 44.40 feet distance with a healed blaze.

A 11-inch diameter fir bears S 58° 54' W 25.30 feet distance with a healed blaze.

Section corner common to Sections 34 and 35, Township 36 South, Range 3 East and Sections 2 and 3, Township 37 South, Range 3 East.

At the corner point I found a standard BLM brass cap monument marked:

Cadastral Surveys
Bureau of Land Management

From which the following references:

A 29-inch diameter fir bears N 32° 51' E 32.30 feet distance with open blaze badly axe scarred.

A 10-inch diameter fir bears N 67° 52' E 28.70 feet distance with a healed blaze.

## SURVEY NARRATIVE TO COMPLY WITH PARAGRAPH 209.250 OREGON REVISED STATUTES

SURVEY FOR:

Rogue River National Forest
P. O. Box 520

Medford, Oregon 97501

and

Jack and Marian Steves 24001 Highway 140 Eagle Point, Oregon 97524

LOCATION:

Section 34, Township 36 South, Range 3 East, Willamette Meridian, Jackson County, Oregon.

BASIS OF BEARING:

Solar observation

PURPOSE:

To establish monuments and mark and post mutual property lines separating National Forest and private lands.

PROCEDURE:

I began this survey with an investigation of the controlling corners. The Northeast and Northwest section corners and the North one-quarter corner were described within Record Survey No. 8710 and were used as controlling corners for this survey. Those corners will not be redescribed within this narrative.

The East one-quarter corner and the Southeast and Southwest section corners had been remonumented from original evidence by the Bureau of Land Management, Cadastral Surveys. The South one-quarter corner had been reestablished by proportional measurement by Registered Professional Land Surveyor No. 404, Marvin C. Ramsey.

No evidence of the original West one-quarter corner had been located prior to this survey.

With the above corner control identified, I performed a series of closed traverses tying the above corner control. From this data the position of the South one-quarter corner established by Surveyor Ramsey was verified and a search area was determined for the West one-quarter corner. An extensive search for the missing West one-quarter corner failed to locate any evidence of the original one-quarter corner. This corner was reestablished by proportional measurement as shown on the attached map of survey. A search was performed for original corner evidence of the South one-quarter corner without success. In view of this fact, I accept Surveyor Ramsey's monument.

Propery corners were monumented as shown and property lines separating National Forest and private lands were posted utilizing fiberglass boundary marker posts with National Forest boundary signs attached. Trees along the true line were blazed and painted with red timber marking paint.

Work was performed utilizing a Wild T-2 Theodolite and Hewlett-Packard 3808A Electronic Distance Meter.
