COUNTY**
Oregon

8807 is a roll map 57/12, to inquire visit the Surveyor's Office located at 10 S. Oakdale room 318 Medford Oregon.

SURVEY NO. 8807

SURVEY NARRATIVE TO COMPLY WITH PARAGRAPH 209.250
OREGON REVISED STATUTES

SURVEY FOR: Jack Hoffbuhr
2726 Eastside Road
Jacksonville, Oregon 97530

LOCATION: Tract situated in the East one-half (1/2) of
Section 28, Township 39 South, Range 3 West,
Willamette Meridian, Jackson County, Oregon

PURPOSE: To monument the corners of the total land owned
by Mr. & Mrs. William Ziegler on May 1, 1970.
Also prepare legal description of the entire tract
less the 5.55 acre tract conveyed to Robert Ziegler.

PROCEDURE: The controls for Recorded Survey No. 3497, which
required the subdivision of Section 28, above Township and Range,
were found and used. The corners set and re-established by Recorded
Survey No. 3497 were verified and used. It was necessary to set
the Center South one-sixteenth (1/16) corner and the South one-
sixteenth (1/16) corner between Sections 27 and 28. These corners
were established and referenced as indicated on the attached map.

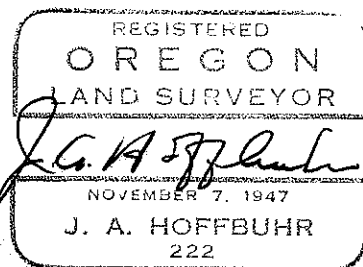

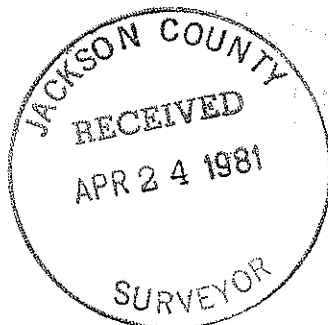

Intermediate line points were set on the East and South lines
of the tract as indicated. These are random points and have no
significance other than being on the property lines.

The alignment of the Eastside Road was traversed and placed
on the map. This is only a proposed alignment and has not been
approved by the County Engineer. The original road was petitioned
in August, 1903, and appears in Commissioner's Journal 12, Page 222.
The alignment of the original survey agrees quite well with the
proposed alignment as shown.

Basis of bearings--Recorded Survey No. 3497

March 24, 1971

(It was brought to the attention of this
office in April 1981 that this map and
narrative had not been filed at the County
Surveyor's office.)
