# 0.R. S. 209.250 NARRATIVE

THIS SURVEY WAS PERFOMED TO ESTABLISH THE NORTHEAST AND EAST ONE-QUARTER SECTION CORNERS OF SECTION 35, TOWNSHIP 38 SOUTH, RANGE I EAST OF THE WILLAMETTE MERIDIAN. PRELIMINARY SEARCHES FOR INFORMATION INCLUDED JIM ROBERTS OF THE CITY OF ASHLAND, THE B.L.M., THE JACKSON COUNTY SURVEYORS OFFICE, AND MR. JOSEPH DAUENHAUER (ADJACENT LANDOWNER). INITIAL RETRACEMENT CONSISTED OF A 9.5 MILE CLOSED TRAVERSE USING KNOW MONUMENTS. A FIELD SEARCH FOR ORIGINAL G.L.O. CORNERS WAS MADE USING ORIGINAL NOTES, RETRACEMENT DATA, AND COUNTY SEARCH RECORDS. TO SET THE DESIRED CORNERS, SEVERAL LOST CONTROLING CORNERS WERE FIRST LOCATED BY PROPORTIONAL MEASUREMENTS. ALL CORNER LOCATION WAS DONE BY THE BUREAU OF LAND MANAGEMENT'S MANUAL OF SURVEYING INSTRUCTIONS. ORIGINAL TOPOGRAPHIC LINE CALLS WERE CHECKED AND FOUND TO BE CLOSE ENOUGH TO SUBSTANTIATE THE PROPORTIONED CORNERS AS FOUND BY THIS SURVEY.

BASIS OF BEARINGS - W 1/4 COR. SEC. 6 TO SE COR. SEC. 24 USING ORIGINAL NORTH BEARING, SURVEY BY TIAE & TOOB THEODOLITES, MAC IH & AUTORANGER II EDM's, AND STEEL TAPE.

Road Staking

January 11, 1982

Mr. Ed McGinty, County Surveyor Jackson County Courthouse Room 305 Medford, OR 97501

Dear Ed:

Surveying

Timber Cruising

Here is the first plat of survey work we are doing in T.38S., R.1E., W.M.. As you will note, the 5/8 inch corner monuments set in this survey will be replaced and recorded with brass caps when ground conditions allow vehicular transport of materials. This was done to secure control as we will be out of that area for awhile.

If Ron Frost does find some corner evidence not found during this survey, let me know and the needed corrections will be made.

As yet, I have not had contact with the adjacent landowners concerning the setting of the Township you requested.

Thank you for your help.

Sincerely,

Russell D. Hendricks
