Survey Narrative to Comply with Oregon Revised Statutes 209.250

Survey for:

M. R. C. P. O. Box 550

Medford, Oregon 97501

Survey by:

Arthur R. Rambo LS 1086

P. O. Box 133 Butte Falls, Oregon 97522

Location:

Southwest 1/4 of Section 7 Township 33 South Range 3

East Willamette Meridian

Date:

March 9, 1982

Basis of Bearing:

Survey No. 9215

Purpose:

To monument and mark boundary lines of M. R. C. lands

Procedure:

A search of the records revealed that the original survey of this section had been completed under two contracts. The West line was surveyed by Turner and Howard under contract No. 142, dated September 9, 1870. The North, East, and South lines were surveyed by Rufus Moore under contract No. 475, dated July 3, 1883. The original corners needed for this survey have been remonumented by the Jackson County Surveyor.

I ran a random line traverse tying in the corners needed for control of this survey, beginning and closing on a survey which I completed in Section 12 Township 33 South Range 2 East. The boundary lines needed were then computed and established as shown on the map to accompany this report.

Corners and accessories found and accepted:

All measurements to trees are to center of tree at lower

face unless otherwise stated.

Section corner common to Section 12 and 13 Township 33 South Range 2 East and Section 7 and 18 Township 33 South Range 3 East. At the corner location I found a 2½ inch dia. bronze disc Jackson County monument
